No Medical Advice

Please note that the information on this site is for general advice only and does not take the place of any professional medical advice. Please use this information responsibly.

*I have studied a great deal on the subject, particularly in nutritional therapy and psychotherapy, but by no means exhaustively. What I bring to the table is over 30 years worth of my own healing journey experiences and processes that led to full recovery from the pain and symptoms of endometriosis (and adenomyosis). What I describe is a multi-dimensional and pragmatic approach to recovering which worked well for me and changed my life. I am unable to make any claims for legal purposes and cannot promise it will work for every one, only that it worked for me. Although this process may not work for everyone, I hope and pray that it works for you, as it did for me and many women around the world, so you be free of this debilitating condition. Best healing wishes, **Wendy K Laidlaw**.*
